

Generic Blood Test Report

Patient Name: Suhas Kanwar
Report Type: Routine Blood Test (Sample)
Disclaimer: This is a generated sample report for non-medical use only.

Reported Symptoms

- Persistent headaches
- Dizziness and light-headedness
- Occasional blurred vision
- Fatigue
- Chest discomfort during stress
- Shortness of breath on exertion

Vital Signs

Parameter	Observed Value	Normal Range
Blood Pressure	150 / 95 mmHg	120 / 80 mmHg
Heart Rate	88 bpm	60 – 100 bpm

Blood Test Parameters

Test	Result	Reference Range
Hemoglobin	14.2 g/dL	13.5 – 17.5 g/dL
Total Cholesterol	220 mg/dL	< 200 mg/dL
LDL Cholesterol	145 mg/dL	< 100 mg/dL
HDL Cholesterol	38 mg/dL	> 40 mg/dL
Triglycerides	180 mg/dL	< 150 mg/dL
Fasting Blood Sugar	105 mg/dL	70 – 100 mg/dL

Clinical Impression

The report shows elevated blood pressure along with borderline high cholesterol levels. These findings may be associated with hypertension and increased cardiovascular risk.

Recommendations (General)

- Regular blood pressure monitoring
- Reduced salt and fat intake
- Regular physical activity
- Stress management
- Consultation with a healthcare professional
